**NAVAL HEROES HONORED ON ANNIVERSARY OF BATTLE OF TRAFALGAR.**

On October 21st a company of lads of the Boys Naval Brigade, under Captain Mathews, and representatives of the Army and Navy Veterans Association of Canada and of St. George's Society assembled at the monument. The Army and Navy Veterans Association laid a flower decorated anchor on the foot of the statue. The Navy League of Canada added a wreath of roses, and the St. George Society contributed a wreath of white flowers with a centre cross.

## STRATHMORE U.F.A. MEETING

A meeting of the U.F.A. was held on Saturday last in the King Edward Hotel, a good attendance being present.

Several items of great importance were discussed and settled on to a good advantage to the farmers, and all members who were not present missed a very businesslike meeting. The question of cross-shoppers was again brought forward, and the Rev. Treas. was instructed to write the Dominion Ethnologist for the best method to fight the loggers for the coming year.

The cooperative handling of milk and cream was again brought up, and as there was nobody interested sufficiently in dairying the subject was put on the shelf until another meeting. It was unanimously resolved that an Agency with the United Grain Growers be opened at Strathmore and the Secretary was instructed to advertise for a man for the position. "See the advertisement column of this paper."

In view of the annual convention soon being here the Secretary was in-

## DALEMEAD NOTES

U.F.A. meets Friday, November 19th at 2 o'clock. Farmers are expected to bring their wives to organize a U.F.A. W. A. Cupid has been at work in the district and Jimmy Holmes is the victim. We understand the wedding between Miss Jennette Huntley and the storekeeper Jimmy takes place sometime next July. Good luck to 'em.

This winter bids to be a lively one in Dalemead, there are 1 or 5 practices going on each week so watch for further announcements.

Service next Sunday morning at the Hall. Rev. Cook will reorganize the Sunday School and a good turn out is expected.

## A NEW FARMERS WEEKLY

A pamphlet appeared in our issue two weeks ago as regards a proposed farmers newspaper. It appears from the remarks made by another farmer, who is also a backer of the new venture, that the subscriber who gave us the information in the first place is somewhat out, and that the new paper is not to conflict with any organ now in the field, but is rather to amplify the work done by the Grain Growers Guide and the U.F.A. organization in view of the coming election.

This puts an entirely different complexion on the matter, for the U.F.A. as an economic and political body should have 100 per cent. of farmers in its membership, and a weekly newspaper devoted to the interests of the farmers should strengthen the cause, and help in the election of farmer members to parliament next year.

## Mrs. JARLEY'S WAXWORKS

The famous Mrs. Jarley will visit Strathmore with her fine array of waxworks on Tuesday evening. November 23rd at the Opera House. These figures give a life-like imitation of the splashing scene when wound up. Many favorites of stage and screen will be presented, while Mrs. Jarley herself and her attendants Peter and John are variable waxworks.

The play will be produced by local amateurs and the proceeds are for the benefit of the Anglican Women's Guild.

## FAVORS BONE DRY PROHIBITION

The Board of Strathmore United Church has passed the following resolution in regard to the recent referendum:

**TO WHOM IT MAY CONCERN**  
 The Quarterly General Board of the Strathmore United Church at its regular session held here last week unanimously passed the following resolution, and instructed the Secretary to forward a copy to the proper government representative at Edmonton.

WHEREAS the Referendum Vote in this Province on October 25th, has resulted in a majority of approximately 2000 in favour of prohibiting the transportation of liquor; and WHEREAS persistent efforts are being made, in the press and elsewhere, to belittle the significance of this vote and to thwart the expressed will of the people by substituting some form of government control.

**THE BOARD EMPHATICALLY PROTESTS** against all such efforts, and calls upon the government to introduce and pass efficient legislation to carry out this mandate.

Yours faithfully,  
 W. M. MARSHALL,  
 Recording Secretary

Members of Strathmore Masonic Lodge, with their wives and families, will meet in a social capacity tomorrow evening to honor Bro. W. E. Brown, who is leaving for the coast very shortly. Bro Brown is past-master of Strathmore Lodge, and has at times taken a great interest in its welfare. His loss will be a heavy one in the lodge, and to the community generally.

Armistice day was celebrated as a half holiday but on account of the notice given it was not generally observed by all the stores.

An enjoyable and well attended Armistice dance was held in the King Edward Hall on Friday evening. This is the third of a series of dances which commenced last month, and these will be continued under the auspices of the proprietors of the King Edward Grill throughout the winter. They are providing a big attraction for the young people, and being well conducted, with good music, and everything just right, provide an inexpensive means of enjoyment. Many from out of town were in for Friday's dance.

The well-known President of the Board of Trade the latter, however, being not so well-known is taking an active interest in Municipal politics this fall. Possibly it will be "Robson's choice" instead of "Hobson's choice." It makes an "H" of a difference.

The genial secretary of the U.F.A. credits the editor with the remarks that the farmers must hang together. It looks like a case of banging to order or hanging separately, the way grain prices are going.

A Ford owned by Billy Fischer ran into the gasoline filling tank in front of Strathmore Motors one day last week, breaking off the pillar at the ground. The damage will probably amount to between one and two hundred dollars, but the car escaped without much damage. The occupant however, will undergo a serious operation in the region of the pocket book.

I don't forget that Christmas is but five weeks off. It is getting to be time for Christmas shopping and Christmas celebrating.

The alterations being done at the station at Rockyview are nearly completed and given good weather this week should see the work finished.

## PRETTY WEDDING AT KEOMA

A very pretty wedding took place at the home of Mr. and Mrs. R. Allison on November 16th when Miss M. R. Allison was united in marriage to Mr. A. J. Wilding of Namaka. The ceremony was performed by the Rev. P. Berry, of Calgary. The bride carried the roses on the arm of her brother, but to the strains of "O Sweetly Soothe My Thoughts."

The bride was attired in a pale blue silk dress with an overblow of silk and embroidery, still veil and of orange blossoms and carried a bouquet of white roses and carnations. After the ceremony the guests sat down to a very dainty breakfast, the table being decorated with carnations and white six-petals centered with a three tier wedding cake. The bride was the recipient of many valuable and special gifts.

The guests included Misses Lily A. Evelyn Allison, Mr. and Mrs. A. C. Ranby, Misses Ruby and Cuban Ranby, Mr. Roy Ranby, Mr. and Mrs. Ian Rankin, Miss Marie Hagen, all of Keoma; Mr. C. Ballard, Mr. and Mrs. Faulk, and Miss Smithers, of Namaka; Mr. C. McNelly, of Calgary.

The party were entertained till the small hours of morning and everyone spent an enjoyable time. Mr. and Mrs. Wilding, the newlyweds, departed in Arthur's new Ford with the bride trimmed with caps, pails, old boots, etc., which jumped and tossed in the air till they disappeared in the gloom and the big notice on the back "Just Married" was seen shortly after near Calgary where they will spend a short honeymoon. They will reside at Namaka, where the bridegroom is a prosperous farmer and well-known.

The Ladies Aid will hold a bazaar and chicken supper on November 25th in the hall at Keoma.

Mr. and Mrs. A. C. Ranby will leave shortly for a trip to British Columbia. Miss Marie Hagen, who has been with Mr. V. Kempton for a considerable time is visiting her brother Chris.

Edmonton, Alta.—One thousand gallons an hour is the production of the old well in the Port Norman district where a flow was recently struck by the Imperial Oil Company. The activity of the company are still progressing, and dippers are full of optimism over the prospects of locating other wells in the Peace River district where the company is boring on its "bores."

## Namaka Notes

FAREWELL TO MR. AND MRS. WOOSTER

On Friday evening a large number of friends and neighbors of Mr. and Mrs. Wooster gathered at the I.O.O.F. Hall to bid goodbyes and wish them well on their journey to England.

About seventy people, old and young were present and spent the first part of the night in games and social intercourse. A short programme of songs contributed by Mrs. Lawington, Mrs. Wooster, Mrs. Sanderson and Mrs. Lawington, and Mr. L. Atkins performed a number of clever acrobatic feats.

The Rev. Mr. Philips gave a sort speech.

Immediately before supper Mr. J. P. Lawrie who occupied the call presented to Mrs. Wooster on behalf of the subscribers a beautiful case of Pearl handled cutlery. Mrs. Lawrie said that a community could ill afford to lose the services of people like Mr. and Mrs. Wooster, who had always taken an active part in any movement for the good of the people and district, and extended the best wishes of all that they have a safe and pleasant journey. Mrs. Wooster in the absence of her husband thanked the donors and expressed regret at parting with Namaka district and so many good friends.

After supper the inevitable dance developed to Mrs. Lawington's music and everybody went home in the small hours feeling that they had made the most of what is generally a regretful function.

Mr. Harlow Brown arrived home on Friday afternoon from hospital, and is now making a rapid recovery.

The "Chevarre" bunch were disappointed on Saturday evening as the "victim" did not arrive home.

Mr. and Mrs. C. W. Watson are spending a few days in Calgary.

An wedding was married on Wednesday at Keoma to Miss Mary Allison.

A large number of young people from the district attended the banquet and dance at Gleichen on Tuesday and report an excellent time. Namaka is well represented at the Agricultural School, four pupils taking their first year and three completing their second year course.

Signs are favorable for an open winter. The rains are building in shallow water, and Namaka Lake is "booming" these nights. We shall see.

**FRENCH ACE WHO COMPLETED IN GREAT AVIATION TOURNAMENT.**  
 Captain Rene Fonck, French "Ace" of the war, is being photographed at Brie, France, where he took part in the great aviation tournament recently. It was Fonck's first public appearance as a flier since the war. President Millerand, who was among the interested spectators, congratulated the daring flier on his performance.

## Rockyford Locals

The Crown Lumber Co. Ltd., is having an extension to its office space erected in the rear of the building and in keeping with their constantly growing business in their yard at Rockyford. Mr. E. L. Miller, agent for the Crown Lumber Co. in this district, has developed a considerable business for his company steadily through his own efforts and is completing one of the most progressive years of business that the local office has enjoyed. The lumber yards in a small town have been a very important factor in the developing of a new district and the Crown has already a good start well.

### THE HOSPITAL SITUATION

The meeting of the Hospital Board for the proposed new hospital district held in Calgary last week, and dealt with in last issue, was not so satisfactory in its decisions as it might have been. There was a strong element in opposition to the hospital scheme, and while they did not succeed in having it scheme shelved, they cut down the recommendations of the committee appointed to draw up a scheme considerably.

The decision not to build any sub-hospitals, for the present, but to leave existing buildings, is not satisfactory. In most of the towns and villages where sub-hospitals are recommended, it is going to be hard to find buildings that can be used for hospitals. Particularly in this case in view of the present housing shortage. Again, dwelling houses adapted as hospitals will not give the same results in the way of sanitation and health as buildings constructed specially for hospitals. Then, again, the public vote will be on a temporary scheme for two leased buildings there is no prospect of permanency. The people are to have an opportunity to vote on the scheme. It becomes effective, and the people's views should be taken on a scheme that is of a permanent nature, rather than on a scheme that may be changed and altered after the people have spoken.

We do not believe that the hospital scheme will gain any more votes by leasing buildings rather than by building them.

Again, with regard to the size of the hospital to be placed at each point the Board's action is reducing Strathmore and Glendon to five-bed hospitals will not meet with general favor. These two points are the largest centres of population within the district. Strathmore is now voluntarily supporting an hospital in which there are more than five beds in use.

We cannot understand the attitude of the several representatives from Langdon, who, provided for an hospital for Langdon on the grounds that it had more population in its district than in our district, and when his application was turned down did his hardest to back the Strathmore proposition. It is well known that Langdon has less population in population and in the number of businesses for a number of years past, and that probably Carleton or other points in the district, though they had no representatives on the board, probably expected it in population. Also Langdon is within twenty miles of Calgary. Such ministers seem to have been indulging in terminology exercises lately, and we would hate to see Mr. Greer in the same column as Mr. Jones of Lethbridge, who carried a heavy slap on the wrist from Attorney-General Boyle lately.

The editor of the Alberta is also among the opposition to the sub-hospital scheme. If he had the opportunity sometimes to accompany the country doctor on his rounds, he would realize that hospitals at points not far distant from the homes of the sick are necessary for the health of the community.

However, when all the minor points are taken into consideration, the factor on which the vote will be taken will be the principal step in advance that we are now regarding the sick man, woman, and child, as a charge on to vote community. Sicknes fails most often on those who are the least able to bear it. The voters, then the hospital scheme comes before them for approval, should be able to side petty prejudices regarding location etc., and vote for the principle of hospital treatment for all who need it at the expense of the well and sick alike.

### COMMENTS ON CURRENT EVENTS

There is a prospect of work being started on the memorial hall at Strathmore within the next week or two, if the weather will allow of the foundation being put in. We believe that a visible evidence of activity would do more to bring subscriptions in than anything else. When the Glendon memorial was constructed for we understand only one-third of the amount necessary was subscribed, but by the time of the opening every cent had been subscribed.

We would like to draw attention to the appeal of the Red Cross on another page. The amount of suffering in Central Europe is beyond description, and Canada can surely do its bit to alleviate it as much as Britain and the U.S.A. whose citizens have already contributed lavishly to the fund.

Some time ago the Government imposed a sales tax of 2 per cent, together with luxury taxes. They practically annihilated every retailer and manufacturer a tax gatherer. The latest development is that each retailer is to pay a license fee of \$2.00 and each manufacturer a license fee of \$5.00 for the privilege of collecting the Government's taxes. Being classed as a manufacturer, the printers pay \$5.00 each a year, and what a Government!

"Pence Mackenzie, of the Strathmore Standard is a brave man. In reporting the heavy vote majority at Strathmore for says the women apparently voted according to the opinions of their male relatives. John's mix will be with the women. Not to be outdone by him, the Herald remarks that the dry majority throughout the province apparently indicates that the men voted according to the opinions of their female relatives. Our mix will be with the men. Herod, Hanna—It brother McCrear, of Herod, mixes too much with the men, his mix will be with the drinks. What do you say about it brother Noe bit."

In anticipation of the opening of a curling rink here, local clothiers are buying in a supply of Scotch "Tam-o-Shanters". In anticipation of something else, others are buying in a supply of Scotch.

Some beautiful sunsets and sunsets are being witnessed these days. Some beautiful displays of Aurora borealis have also added beauty to the evenings. Alberta in the winter time has some charms which other provinces cannot approach.

The president of the Canadian Bankers' Assoc. believes that with most business men the profits of war time have been sufficient to enable them to take care of after-war and readjustment losses successfully. But what about business men and other men who were in service during the war, and have to stand the losses without having had a chance of getting in on the profits made. (In some cases legitimately, and in others illegitimately) during the war.

The housing problem is getting very acute in Strathmore. Many homes are well, they aren't. It is surprising that neither Premier Meighen nor Albinus King touched the housing problem in their many speeches. Premier Meighen was asked about it, and all he could promise was consideration but consideration does not do much good for the family living in a two-room shack. It is a pity that the Government which has seen to bonus foreign soldiers should not be able to do something to help homebuilders among its own people.

Glendon is to be congratulated on the splendid memorial erected there and opened last week with appropriate exercises for the men who have fallen from that district.

Mr. R. S. Frayn was prominently mentioned in the general report of the most energetic canvasser and able workers in the great drive for 100 per cent membership. Mr. Frayn has always devoted considerable time to C.F.A. matters and as always interested himself in any beneficial movement to the farmers.

## The End of the Cow Country

This part of the province is getting settled very quickly and many of the old time ranchers attracted by the high price of wheat, did what the new comers are doing now and went into grain growing. The open range is going and between Nightingale and Drumheller, but for a few seasons not yet fenced up, the rest is practically under cultivation.

Even the Pope lease, the last hope is gone, and by next year, one will be able to see many returned soldiers harvesting a land on which last spring more than 8,000 head of cattle were grazing.

The ranching times are gone, and forever it seems, the old timers of this district, Langley, Hines, Nolan, Kerby Pope, have sold or will be selling away most of their cattle.

A few of them like Davies and Kennedy, and Cyr have still a few head running near Hinton, but the herds that were so typical of this province are now gone and by next year this section will have become an exclusively farming country.

Of course it is so much better for the whole community but it is impossible not to feel any sadness in seeing the old timers going. They were the pioneers of the land. Their hospitality, simple and touching, was always professed with a good heart. They were free men and lived as such.

Some times they had it rather hard but they were no quitters and they made good.

Of course they were not perfect, but who is perfect? Besides the old timer, he has found mining in the last few years very profitable. A short while ago he purchased a silver mine, the Esplanade property, for \$200 as a sheriff's sale, the property being sold due to the purchaser's failure. Recent by he disposed of the mine to a group of Vancouver men for \$75,000.

A gang of railroad laborers considering many Chinese are at present engaged in laying additional tracks on the C.N.R. line and work is proceeding mainly under the supervision of foreman Nick Rybinski of the local section.

Don't forget the chicken supper in the Union Church, November 25th.

Hear the Scarborough Ave. Quartet and the Humorous Reader, Miss De Long, at Calgary, November 25th in the Union Church.

The death took place on Monday at Calgary General Hospital of Mr. Peter Lombing, a local farmer. The cause of death was pneumonia, and he had only been moved to the city the previous day. Deceased was well known locally, and had many friends, but his relatives have not yet been traced.

There is a fine sheet of ice on the lake this week, and skaters are taking full advantage of it.

Messrs Beach and Fox have secured a very attractive advertising service, and their ads make good reading each week.

The Bradley farm will be offered for sale for taxes on Saturday of this week, unless they are paid prior to that date. The tax sale of lands in the Municipality of Bow Valley is an arrears of taxes will be held on Saturday of this week. A considerable number of the lands advertised have been withdrawn by the payment of the taxes, but there are still a number for sale.

Strathmore G.W.V.A. are holding their annual election of officers in the Oddfellows Hall on Friday, November 25th, and want a full attendance of their members present.

Constable Paskoniuk is busy arranging his characters for the performance of Mrs. Jarley's Waxworks next Tuesday, in the Opera House.

Disregardment as to the amount of rent has caused a hold up in the move in Strathmore this winter, but we hope this will be got over and that we will be able to get our weekly or twice weekly thrill.

Our own Bill Tierney took a holiday to Calgary during the weekend, and according to the Alberta mail stopped at the Police Station there to pay a loan of \$10.00 that he owed to Inspector Nutt, when he was given bookings for the night, it being alleged that he was drunk. If liquor would act on all people the same way, we wouldn't mind giving some of our doctors a short or two on the chance of their coming through. This offer does not apply on subscriptions however. Buses is too expensive to be given away as a discount on two dollar bills.

Those who are retailers by conviction, however, will not, we hope, be dissuaded from paying their bills by the above paragraph. They will not be tempted.

The new telephone lines which we mentioned had been promised for a very early date may not be erected after all, as early as expected. Twice over this, in the telephone business. Mr. Webb, from the Bowden branch is now ledgerkeeper at the Strathmore branch of the Union Bank. Mr. Kerstine, having been transferred to Carleton Place.

Mr. Asper, of Carleton Place, was on a visit to his daughter, Mrs. Hesp this week.

Strathmore U.F.A. boasts one member at least, who is not a convert to Free Trade, and he said so at last meeting. He seemed to be the only advocate of Protection at the meeting however.

Mrs. Shupe, Bowden, with her son is a visitor to her parents, Mr. and Mrs. James Martin, this week. Mr. and Mrs. Shupe expect to visit the old country during the coming winter.

Mr. P. Nicholson is back to his old home in the Comfoot district again. Being from Missouri, he had to be shown, but has now been shown after being back in Missouri for a year or two.

During the past week we have had our first touch of zero weather, but a change for milder weather came again on Monday.

## Against Price Reduction in Tractors

HART-PARR COMPANY ANNOUNCES LIBERAL POLICY WITH BUYERS.

The Hart-Parr Company, manufacturers of tractors at Charles City, Iowa, have announced that they will protect every person, who purchases one of their tractors against a reduction in price before June 1, 1921. If through reduction in manufacturing costs they are able to reduce the price of their tractor before next June, they guarantee to refund to owners who purchase tractors between now and June 1st, the full amount of that reduction.

They state that in their opinion lower prices in manufacturing must be based on lower prices for raw materials, and the stimulating of quantity production. If that thing comes before June 1, 1921, every farmer owner of Hart-Parr tractor becomes a partner of the Company and shares with them the full extent of the reduction.

## RED CROSS APPEAL

During the forthcoming winter, the problem of the Red Cross, in whose behalf an appeal will be made on Armistice Day in Alberta, in common with every other portion of the British Empire, will be to take care of from 2,500,000 to 4,000,000 children in the war-stricken areas in Europe. For this purpose, according to a statement made by Herbert Hoover, when the Canadian appeal in behalf of the British Empire Fund was launched in Toronto, a total of \$4,000,000 a month is required from all the nations in the league of Red Cross Societies. "Surely," said Mr. Hoover, on that occasion, "it is not much for the whole world to find."

"To me, the greatest problem of the human heart in the world today, is the problem of a myriad waifs and orphans, hungry children, throughout eastern and central Europe. The slaughter of fifteen millions of men could not but have left untold numbers of helpless waifs and orphan children in the track and upon their well-being must depend the upbuilding of Europe. At let the great Allied countries are in the most able to take care of their own, and the most poignant problem of the world's life is in that area from Finland through Western Latvia, Poland, Germany, Austria, Hungary, Czechoslovakia, a little of Rumania and Serbia. In many countries it is a white problem in family destruction, and it is a problem in destitution beyond the ability of the state to find remedy. Although the misery of the people of Italy and France has been of no moderate degree, they have yet found something for Eastern and Central Europe. Through the existing organizations we have a common feeling through which we can pour support without waste and without duplication. We have found by experience that the cost of caring for a war child is approximately three dollars a month, that of the supplies that are required by imports, about one dollar is needed, and therefore, that the dollar that we provide, together with the local

work, local governments, local municipalities, local churches and local services, together preserve the life of one child."

The appeal in Calgary will be made through the local branch of the Society, which is now organized for the purpose of raising money and the period following. In all parts of the Province, local branches will raise money. Contributions may be made either to the local branches or to the Alberta Division, which is situated in the Canadian Bank, 267-7th Ave. S.E.

## ROYAL ARCH INSTRUCTION CHAPTER

(Held over from last week)

Royal Arch Masons of district No. 1 met in the masonic hall last Wednesday night for a Chapter of instruction and representatives from every Chapter in the district were present including a large number from Calgary. A degree from Grand Chapter, Calgary, exemplified the work in splendid form for the instruction of the complanate present.

The question of entertainment was in the hands of the Strathmore Chapter and the chicken supper they provided was not the least appreciated item on the evening program when some sixty companions sat down to the festive board at midnight.

Following refreshments a toast list was given when several excellent and very instructive addresses were delivered and wit and humor had full sway.

Not only did this meeting materially serve to spread Masonic knowledge but the gathering of representatives of so many Chapters together helped to increase the Masonic spirit.

Among the distinguished visitors present were:  
M. M. Lowrey, Grand Custodian and Past Grand Z, Calgary.  
R. E. J. Johnston, Grand Senior E, Calgary.  
R. E. T. W. Bates, Grand Sup't, Gleichen.

## OLD MOUNTIES ORGANISE

About one year ago, a Division of the Royal North West Mounted Police, Veterans' Association, was formed in Edmonton. We started out with some 26 members. When the Annual Meeting of Association was held in the month of September at Vancouver, which place for some years past has been the headquarters of the Association, it was found that the headquarters of this division was the strongest division, with the result that the headquarters were transferred to Edmonton. The headquarters executive here are asking all ex-members of the force to join the association, as only by strength and mutual cooperation can anything be obtained in the matter of recognition of past services by ex-members of the force. The Association is endeavoring to obtain a readjustment of the pensions that are paid to old members of the force, as the pensions that they are getting are very strongly old and are, and are entirely inadequate in these times.

Any ex-member wishing information regarding the Association should communicate with the head-quarters secretary

## Proved Best by Every Test

THE OilPull tractor has been thoroughly tested and thoroughly proved by every test to which you can put a tractor, in public demonstration or private work, in the field or in the belt. From the standpoint of low upkeep and operating costs, from the standpoint of saving of time and labor, from the standpoint of growing better and more profitable crops, the OilPull has proved its merits ever since the first days of the tractor industry. Back in 1912 at the first official tractor demonstration in Winnipeg, Canada, the OilPull established records that have never since been equalled, and in public tests ever since then the OilPull has proved its leadership in every test.

And in that greatest of all tests, actual work on the farm in the hands of the owner, the OilPull has absolutely established its record as "the best".

It is the best because it is the most efficient. Efficiency means doing the job in the quickest way, the most thorough way and the most economical way. The OilPull does the job quickest and most thoroughly because it "stays on the job" and has power to spare—25% reserve over its rating. The OilPull does the job most economically because it burns cheap kerosene, not some of the time but all of the time, under all conditions and at all loads. It is the only tractor with which is given a written guarantee to do this.

The tractor that you want on your farm is not the one that is proved best by claims but the one that has proved best by test—by actual use in farm work over a long period of years—the OilPull tractor.

The OilPull is made in four sizes—12-20, 16-30, 20-40 and 30-60 H. P. There is a size to fit your farm. Come in and get a catalog.

[illegible]

so successful that it is predicted that one hundred silos will be built in the district next year and more than a thousand acres of sunflowers planted.

Similar plans are being made in other parts of Western Canada, and the already rapidly growing dairy industry promises to grow much faster with the general acceptance of the sunflower as a silage crop. Another evidence of the value of sun-

flowers as a forage crop will be the big gain in finished steers. Many of the larger livestock raisers are growing sunflowers and erecting silos for this purpose. This will be considerably increased the finishing areas of Canada, which, hitherto, have been somewhat restricted, compared with the large feeding areas throughout the country, and the livestock industry in the West will be placed on a sound basis.

## Roads

The building of a system of roads to serve our rapidly developing western communities is a problem of the greatest importance and demands businesslike administration and engineering advice and management.

The amount of money that can be spent on roads is a matter of public opinion and the taxable value of the district served and is really a problem in economic and expert advice should be had as a guide to public opinion.

The actual construction of the best roads for the money available is strictly an engineering problem and should not be undertaken without engineering advice and direction.

this case would have been double by getting good engineering advice although about all that was needed was good common sense. It is wise to consider early before property values become too high, the advisability of road diversions and diagonal roads following railroad lines or some feature of the natural topography that will facilitate travel along main routes between towns and villages.

proved by adding sand or sandy gravel. Roadgrading when undertaken can be done most cheaply, except for the cuts and fills, by means of a heavy tractor and road graders. Such an outfit will cost about \$19,960 but will grade roads on the prairie at from \$75.00 to \$100 per mile.

The idea of this article is to classify our roads to cleanliness in discussion into Earth roads, Graded roads, Gravelled roads, Paved roads, and to explain some of the essential matters that define these types and enable us to decide on the best types to advocate for our own particular district.

On April 13th 1918 an act to provide a system of highways in the province was assented to and was made effective January 1919. This act known as the Public Highways Act and provides for the construction of:

- (a) Main Highways,
- (b) District Highways,
- (c) Local Highways.

Main Highways are set aside by the Minister as the important trunk lines. The cost of construction is divided 75 per cent to the Department of Public Works and 25 per cent to the Local authorities. These highways are maintained by the Department.

District Highways are those defined by the Minister as of less general importance but of considerable local importance and the cost of construction is divided 25 per cent. to the Department of Public Works and 75 per cent to the local authorities. These highways are maintained by the local authorities.

This act provides for a systematic scheme of road building and maintenance, but the big work of constructing and maintaining good roads is still ahead and should have the support of all the people.

ROBERT S. STOCKTON.

SUPPORT THE RED  
CROSS

The campaign to be launched by the Alberta Division of the Canadian Red Cross Society on Armistice Day, November 11th, will be the first appeal for support made to the people of this province since the signing of the armistice two years ago. Since that date the Red Cross has been reorganized for Peace work, and in Alberta has greatly extended its activities. In

has brought nursing and hospital services to the outlying portions of Alberta, has in a score of ways assisted returned soldiers and their families in sickness and distress, has taken over children's homes at Calgary and Edmonton, has given supplies and equipment to eight rural hospitals, has

equipped a recreation hut at Strathcona Hospital, Edmonton, has issued supplies to military and S.R.C. Hospitals, has organized about forty Junior Branches with a membership which now approaches one thousand and has carried on many other activities of a beneficent character. It was through the Red Cross that 1967 families in the drought stricken areas of Alberta received articles of clothing in the winter of 1919-1920 valued at more than \$30,000 and nearly 10,000 second hand garments donated by the St.

The Alberta Division is now temporarily hampered by lack of funds. It is appealing to the people of Alberta to subscribe -100,000 for the continuance of its work in this province and at the same time seeks to raise funds for European relief.

# Paint Protection vs. DECAY

Any surface that is covered with *Glidden Endurance Paint* is well covered and will not decay easily, for *Glidden* protection is good protection and saves the cost of frequent repairs.

*Glidden Endurance Paint* prevents decay, keeps out moisture from the wood and resists wear from changing weather conditions without scaling or cracking.

*Glidden Endurance Paint* stays fresh and bright for a long time, wears well and looks well—and *because of its durability is the cheapest paint you can buy.*

## INFORMATION Re. MUNICIPAL HOSPITALS

Brooklet tells of Municipal Hospitals—Interesting Publication by Department of Health Gives Valuable Information.

By the direction of the Hon. C. R. Mitchell, Minister of Health for Alberta, a booklet on the Municipal Hospitals of Alberta has just been issued.

According to the information contained in it, there are at present eight Municipal Hospitals in Alberta, built and operating these being: Manville, Drumheller, Cardston, Ingle, Rossmore and Lloydminster, while schemes have been ratified for the erection of these institutions at Hanna and Viking. These Hospitals Districts comprise an area of 242 townships, including six towns and ten villages.

During the present year four new districts have been established, these being Calgary, Provost, High River and Pincher Creek.

It is the announced policy of Hon. C. R. Mitchell, the new Minister of Health, in proceed with this phase of the Health Department work in a most aggressive manner, but on a sound financial basis, with the idea in view of providing the greatest hospital service to the ratepayers of the district at a minimum cost to the district concerned.

The booklet is an especially fine specimen of typographical art and is illustrated profusely with photographs of exterior and interior views of the Hospitals, which are a credit to the progressive branch of the Government.

For information write Municipal Hospitals Branch, Department of Public Health, Parliament Buildings, Edmonton, Alberta.
